TIPS FOR PARENTS

The kindergarten years are a crucial time for language development, as children's minds are like sponges, eager to absorb new words and concepts. Building vocabulary at this stage sets the foundation for their future academic success and enhances their overall communication skills. Here are some simple ways to help vocabulary through picture books, picture story books, and communication-

1. Introduce colorful and engaging picture books to your child. These books not only captivate their imagination but also expose them to a variety of words and visuals.

A decorative border of pink flowers with yellow centers and green leaves surrounds the text.

2. Choose picture books that cover diverse themes and topics. This exposes your child to a wide range of words and ideas, expanding their understanding of the world around them.

3. While looking at pictures, prompt your child to describe what they see. Encourage them to compare objects, colors, and characters, honing their language abilities.

4. Use picture story books as a springboard for your child to create their own stories. Encourage them to narrate their versions, fueling their creativity and language skills.

5. Engage in meaningful conversations with your child every day. Encourage them to express their thoughts, feelings, and ideas using the new words they've learned.

Building vocabulary is a gradual process, and each child learns at their own pace. Be patient and supportive of your child's efforts, celebrating their progress along the way.

IMPORTANT

- You can send your ward in civil dress on his/her birthday.
- Kindly do not pack your child's tiffin in silver foil.
