*“Every child is different kind of flower,
and all together make this world a beautiful garden.”*

Dear Esteemed Parents,

Welcome to another edition of our monthly newsletter. This month has been brimming with exciting activities and delightful learning experiences for our tiny tots. Here are some glimpses of the fun and productive sessions we've enjoyed together.

ACTIVITIES

Paper Tearing and Pasting Competition

On August 2, 2024, our young artists dazzled us in a vibrant craft competition. They honed their fine motor skills and eye-hand coordination through the sensory delight of tearing and shaping paper. The children transformed colorful paper into an array of imaginative fruit creations, each piece bursting with creativity and charm. Their masterpieces left everyone in awe, showcasing the boundless potential of our tiny tots.

ACTIVITIES

Tribute To Motherland- In order to pay tribute to motherland painting activity was held on 14.08.24. In which children dipped their fingers in saffron and green colours to make strokes in the national flag. A bud was used to make the chakra in the middle. Teachers shared the stories of independence with students and acquainted them with the significance of the day.

Birthday Celebration- Birthday celebrations for nursery kids at BCM Arya are more than just fun; they are a blend of tradition and learning. On August 22, 2024, children with August birthdays participated in a Hawan ceremony, seeking blessings from the Almighty and their teachers. This was followed by a joyful cake-cutting event. These rituals are thoughtfully designed to instill moral and social values in children, helping them connect with their cultural roots and build a strong moral foundation from an early age.

Clay Play Day- Clay is a magical material that captivates children's imaginations. To immerse them in a creative learning experience, Nursery hosted a Clay Play Day on August 23, 2024. The kids had an absolute blast exploring and crafting with clay, feeling immense pride, joy, and satisfaction from their creations. Their tiny hands were busy sorting, categorizing, and comparing shapes, colors, and textures. They made delightful clay models of snails, suns, caterpillars, and more, making the day both fun and educational.
